COUNTY ATT'Y MAY REPRESENT TERRITORY

In the matter of the Territory vs. Antonio Lucas, who was convicted of a crime in Hilo, and then brought up a bill of exceptions before the Supreme Court in which the only question raised was the right of a Deputy County Attorney to represent the Territory in a criminal case, the Supreme Court in a decision written by Justice Wilder handed down about the shortest opinion on record. The opinion was as follows: "We find no merit in the exceptions." The Supreme Court had already decided the matter in the case of the County of Oahu vs. Whitney.

ALL IS LOVELY IN HILO TOWN

Grand Jury Investigates But Finds Nothing To Criticise

The Hilo Grand Jury found everything lovely. This is what it reported to Judge Parsons at the close of its work.

Your Grand Jurors have investigated an alleged case of the use of unlawful influence resulting in the obtaining of warrants in payment of accounts against the County of Hawaii, and have found absolutely no grounds to substantiate such allegations.

A complaint of the existence of irregularities in the pay roll of the Road Supervisor of North Hilo district has also been investigated, but no evidence was produced that any such irregularities existed.

The police force and its efficiency was gone into and your jurors are thoroughly satisfied with the conduct and efficiency of the Hilo police force.

At the request of a taxpayer the Treasurer's method of dealing with Special Road Deposits was investigated and it was found that under a misapprehension of the law on the subject, special road deposits to the credit of some of the districts has been drawn upon to pay over-drafts of other districts. Your jurors feel no wilful wrong has been committed but that the violation of the law has occurred through the ignorance of the one in control of the office.

SETTLEMENT ASSO'NS ARE NOT APPROVED

HILO, Hawaii, July 14.—The Territorial Land Office seems to have set its face against the settlement-association method of acquiring public lands. Several such associations have been formed during the past year for the purpose of taking up valuable cane lands, the leases to which held by plantations have expired.

The Palau Settlement Association applied for the Hakalau-Iki lands, a tract of about 600 acres, which has already been cultivated by the plantation. Another association has applied for the Kamaea-Pueo lands in Kau. As a result of discussions between the Governor and other officials, both associations have been notified that the Government is willing to open these lands for individual locations but not for settlement associations; and also that the lands will be put up under the new form of special agreement sale, the form of which will be published soon.

Another settlement association filed a bill for an injunction some time ago in the local courts to prevent the Commissioner from making a new lease of the lands they wanted to the plantation which had leased them previously. The lease proved to have been renewed before the injunction could issue, and it has accordingly been refused. An amicable adjustment is likely to be reached in the matter, however. The chief objection to the settlement association idea seems to have been in the fact that many of the members would drop out in some cases after the tract had been secured, and fail to fulfill their obligations.

ART IS SOMETIMES A POOR BUSINESS.

When Mr. James Wilder who takes the part of an artist in the play "Lady Fortune" declares that he has chosen the wrong vocation and at selling pictures and poetry is not a very lucrative business the house will come down. It is not often that an actor is given a chance to say in public what he may have thought of in private many a time.

SAFES and VAULT FRONTS

The big fire in San Francisco proved conclusively that money spent upon a poor safe or vault is worse than money thrown away.

Many priceless documents were cremated in poorly constructed safes, and many more were saved because they were in modern, honest-made safes.

Safes and vault fronts made by the Herring-Hall-Marvin Safe Company came through the fire with a reputation that doubled the demand for them.

They are absolutely fire- and burglar-proof.
